

FINAL CONFERENCE OF THE PROJECT

“Tex-EASTile: sustainable innovation for textile sector in South-East Europe”

Szombathely – Hungary
April, Thursday 19th – Friday 20th, 2012

www.texeastile.eu

Dear Ladies and Gentlemen,

We're glad to invite you to discover the results of the **Tex-EASTile** project, which has been co-funded by European Union under the Structural Found Interreg IV B South East Programme.

The aim of the project has been to improve the knowledge and to increase the use of environmental eco-sustainable tools and methods among SMEs in the textile sector, as well as diffuse GPP (Green Public Procurement) procedures within the public sector in Europe and specifically in the South East Europe area.

Along with the project results, we're willing to share with a **great panel of European Experts** how to exploit the outcomes and findings, highlighting in round table sessions the ongoing trends in Green Public Procurement application and Green textile tools for sustainability.

Programme

19th April 2012 (in Szombathely University)
